From the Editor "Side Note!"

Well the torch has been passed from Brown to Newsom. I can't think of a worst day in the history of the state of California. Brown's final farewell to the state was making a speach on how him and his sanctuary state's law and policy had nothing to do with the death of the young police officer in Newman, Ca.. Now that he is gone we have a new ass rag to deal with. I knew I did not like Gavin Newsom the first time I saw him talking TV when he was running for Lt. Governor. This moron is related to Nancy the crap bag Pelosi. At this point I should take a moment to apologize for my bad behavior! I guess it was the heat of the moment that made me use those negative adjectives. I have to say that I am truly sorry from the bottom of my heart! I hope you can forgive me, I never meant to insult the bag of crap. My bad! The cluster Phuqing just doesn't end. We have more and more idiots on the left working to not only sell out our country, but also permanently destroy our way of life. We have passed the 200 year mark, and that is when most of the world's strongest nations started to collapse. The Roman Empire was a prime example. Under the ruler Caligula the attitude was anything goes. Man on man, woman on woman, man on goat and who knows what other things really went on. That was the point where they fell from grace and lost the vast holdings that they once had. When a nation walks away from God and punishes those who still believe in the values taught in the bible, the righteous will be publically humiliated and punished. The Left and the corrupt politicians on the Right worship money and power. They have held Hollywood in there embrace and allowed the perverts to set the moral compass for the nation. The only time the Left or Hollywood is held accountable for their actions is when a person who has been abused or violated comes forward and makes the attack known to the public. Then the Left disowns the Hollywood Perp and throws them under the bus. As long as no one complains, Hollywood could really care less who was abused, raped or ruined! Think about it!

FROM THE EDITOR! "UNSPOKEN THOUGHTS"

I think that it is time to start a recall on 95% of the idiots that have taken over our nations capital. Pelosi and the other gas bags keep coming up with new rules and laws to attack our President Donald Trump. Now this dumb ass wants a law passed that says a President will reveal 10 years of back taxes. Do you think that Pelosi and gang would also be willing to show their last 10 years worth of taxes to us? Do you think they want any of us seeing just how much money they really steal from the people, under the story of this is how we have to operate to make the government function correctly. Mueller has had two years to investigate Trump and comes up with nothing. We now have spent over $35 million dollars on this go no where investigation. Mueller keeps throwing a wider net hoping to get something he can take to the Dem's. He and his pack of jackals are another group who have been made millionaires at the expense of the taxpayer. This needs to end. We need to unite as a nation and tell Mueller that it is time to shut down the scam. It saddens me to think that a man who is trying his best to help the nation from the downward spiral is being persecuted for his loyalty to the people of our nation. Donald Trump gains nothing from being elected President. He was already rich. He was know around the world. His life was good. His family was happy and never did we hear anything bad about his children. Now, it is like Trump is the devil himself and his children eat little babies at every meal. His wife is a beautiful very intelligent woman who speaks 5 or 6 different languages. And you see the bottom feeders on a crap show like the "View" make fun of a woman whom they are not worthy to clean her toilets. We have lost much in the last 50 years that I fear we will not get back. Each generation of politician is just a continuation of the last generation. If you check in Washington D.C. you will see that many of the elected officials are related to someone in the past and is continuing to carry on the tradition of the American Royalty way of life. Sad that we allowed this to happen, and go after the man who is out to stop it!
