FROM THE EDITOR!
"UNSPOKEN THOUGHTS"

Well it just gets better and stranger by the minute! In Australia they have now banned the China Virus Vaccine from coming into the country. Seems that Big Pharma lied to everyone except Anthony Fauci! All these bastards knew that the vaccine was dangerous, deadly, was going to cause bodily harm to anyone who took the jab. Now the autopsies are revealing that their are strange tumors that have never been seen before. Many individuals who took the jab are now in the grave. If you think that you are safe with government making your medical choices for you, you are a special kind of stupid. Our elected officials, for the most part, don't give a shit about you or your family. There is a small handful in Washington that actually care about this nation. If you are on board with the current agenda that is in place in the Biden White House you are also one of the problems that we need to remove from the planet with the rest of the traitors that are destroying our country. This is not bad policy, it is a very well laid and executed plan and it is right on track. The Bush's, Clinton's, Obama, Biden, Schumer, Pelosi and the list goes on. These bastards need to be the ones that are getting indicted. These bastards are the ones that have betrayed their oath of office. These bastards need to face the hangman's noose or the firing squad. If we allow this crap to continue with all the third world mongrels that have entered this country, we are setting up an attack that the likes have never been seen on these shores. The next attack will make 9-11 look like we were invited to a picnic. I am not sure what it is going to take to get the average American to get his head out of his ass? If you haven't figured out by now that the key to survival is a short simple statement.
