FROM THE EDITOR!
"UNSPOKEN THOUGHTS"
We are now at a point where we need to decide which direction the country is going to take in this new order that is out for our destruction? When you have students from other countries here going to school shouting, "Death to America" and then our own citizen students that are also shouting "Death to America" the shit show just ended. The foreign student need to be rounded up and sent back to what ever country they came from. The students that are American Citizens need to be rounded up and informed that there is no warning, they will be held and charged with treason. This will be a wake up call to all the little weasels that you are not with us, you are against us and will be dealt with to the harshest limit allowed under the consitution of this nation. Do you think that for one moment any country on this planet would allow an American Citizen to show up and protest in a public place shouting "Death to China", "Death to Russia" "Death to Iran", this would either get them thrown in prison, or possibly even executed in public as a warning to others not to come here and promote a civil up rising against their governments. We have allowed the Left and corrupt Right to much room to not punish this crime. We as a nation, as a citizen in the best country in history, we the people are the government. We the people under the Constitution have the right at any time to take back our government. We don't need to wait for the next election. We don't need to waste time on filing a petition for a recall. We show up in force, knock at the office door, then inform the politician of their options. They can pack their shit and leave right now, or we can help them pack their shit and physically remove them from this elected office. It is up to us to call the shots! The politicians have put in place laws to distract you from your rights.
